

Workplace Health & Safety

Woodbridge, ON, October 29th The Insurers Financial Group held their Fall Seminar at the Board of Trade Country Club. The Topic: *Workplace Health & Safety – From the Boardroom to the Courtroom to even Jail?* drew many clients and prospects.

With recent developments including workplace audits, new legislation (Bill C-45) and headline news, there was a heightened sensitivity to these emerging risks.

Michael McQuaid, Vice President of IFG summarized these converging events as a call to a risk management response. The guest speaker was Pam Saddlemire, a disability management consultant working with Pivotal Integrated HR Solutions. Pam's extensive experience with WSIB offered invaluable insights into controlling workplace insurance costs. Her case studies provided meaningful examples of containable costs – a priority for every business. The next seminar is scheduled for Spring 2009.
